

EXPANDED MUSIC LAB WORKSTATION

Expanded Music Lab Workstation - Expanded features for your advanced needs.

Our Expanded Workstation combines all the great features of our standard Music Lab Workstation with more space for music equipment and components. The result is a large workstation that's ideal for advanced labs or instructor stations. The wider desk surface can accommodate 88-key music keyboards and has additional rack-mount spacing for more sophisticated audio systems. Included is a 15-outlet power strip and an exclusive wire management system to keep your workstation safe and organized.

And like our Music Lab Workstations, the Expanded Workstation is ergonomically designed to be comfortable by positioning everything within easy reach; functional because there's plenty of workspace and room for equipment; and versatile because it's exceptionally mobile and can be adjusted for a variety of seating heights.

EXPANDED MUSIC LAB WORKSTATION

Our premier Expanded Music Lab Workstation has a wider desk surface to accommodate 88-key music keyboards. It also provides additional space for rack-mount components.

Pull-out computer shelf and tablet arm.

Two front lockable casters.

Convenient headphone holder.

Adjustable Height

The Expanded Music Lab Workstation features an adjustable-height frame for extra versatility. And it meets all ADA requirements for handicap access.

Accessory:

Wire/Cable Clips

Protects people and equipment from accidents by keeping wires and cables organized. Easy to mount behind the access panels.

Workstation Chair

Ergonomic task chair with pneumatic height adjustment for long-term comfort. Available with or without upholstered arm rests. Black base and frame with casters. Choice of six fabric colors.
