INTRODUCE
LIGHT WAND™

NEW STATE OF THE ART LIGHTING FOR MUSIC STANDS

Light Wand™ brings a whole new dimension in lighting to musical performers. Now sheet music can be illuminated evenly, bathed in a cool white light that provides excellent contrast for easy reading. With safe low voltage operation Light Wand™ is 'cool to the touch' when making adjustments and so easy to install that it fits most professional music stands currently in use. This breakthrough is all down to recent revolutionary developments in solid-state technology resulting in a new type of light source called Beadlight™ (patent pending). Tested and developed in conjunction with professional musicians, Light Wand™ is now available exclusively from Black Cat Music.

Facts and Features

A BRILLIANT NEW LIGHTING SYSTEM FOR MUSICIANS

- Even spread of illumination – no bright spots drawing the eye to the top of the page.
- Exceptional clarity of score.
- Thanks to glare-free light control, easy on the eye when adapting viewing from music sheet to conductor and back.
- Light even penetrates theatrical effects of smoke and fog.
- Lightweight, it avoids over balancing music stands.
- 5 year guarantee on Beadlight™ lamp head unit.
- Each Light Wand™ includes Beadlight™ lamp head, flexible arm with clamp, battery pack and battery charger.

RECHARGE AGAIN AND AGAIN

- Simple plug-in device to recharge powercells overnight.
- Soft start facility to check for possible battery faults, senses the charge required to bring the battery to full capacity.
- Short circuit and high temperature protection.
- A multiple plug battery charger is also available on request.
- Powercell is guaranteed for 12 months.

SAFETY FIRST WITH LIGHT WAND™

- Safe low voltage operation means no trailing power cables to trip over.
- Cool running lamp eliminates risk of burns when adjusting the light – just 6°C above ambient.
- Low voltage, delivering up to 14 hours operation without re-charging.
- Safe to use outdoors.

EASY TO USE

- Simply attaches to virtually all makes of professional music stands in use today, without need for any tools.
- Adjustable goose-neck and fully rotatable lamp head for optimum adjustment of light direction.
- Music stands can be packed or transported without need for demounting Light Wand™.
- Over 100,000 hour lamp life makes bulb replacement a thing of the past.
