

BRAVO

Rethinking a music room icon.

No one calls them music wobblers or music leaners; we call them music stands.

And shouldn't your music stands do just that — stand? We thought so, and that's why we took a fresh look at this music facility icon and designed the Bravo.

Music stands dot the landscape of every music facility. They are among the most prominent pieces of equipment so it's important that they look good and stand up straight. On a daily basis they get used and over-used, they get carried around, knocked around and driven around. They have to be built tough. And, since a typical music facility needs quite a few of them, they end up being a significant investment. You shouldn't have to repair, repaint or replace them after only a few years of use.

If you want a better music stand, there's no need to look past the Bravo. It's more durable, more functional, more attractive and a better investment.

BRAVO

A double-bracketed T-joint keeps the desk securely on the stem. The snug fitting brackets apply just the right amount of pressure on plastic collars over each end of the T-bar. The result is a desk that adjusts smoothly, but holds firmly enough not to move when you turn a page or grab a pencil.

Height adjustment moves and locks with a single, smooth motion.

Welded construction stands straight and never needs tightening like bolted construction.

Right out of the box, every music stand looks nice and is performance-ready. But once they're put into use, it doesn't take too much time for the typical metal music stand to look a little tired. In fact, if you have metal music stands in your facility now, go take a look at them. How many are scratched, dented, bent, wobbly or leaning: How many have height adjustments that are too stiff or too loose? How many have desks that won't hold the angle?

Any music teacher will tell you about tightening bolts on wobbly stands or picking through them before a concert to find the ones with the fewest dents and scratches. Ask a musician what it's like trying to get through a performance with a stand that is slowly sinking, or with a desk that keeps tilting forward.

When it comes time to invest in music stands, the Bravo Music Stand gives you a lot more for your money. In fact you'll probably have to replace other music stands long before a Bravo retires.

Music Stand Move & Store Cart will hold up to 18 Bravo Stands.

BRAVO MUSIC STAND SPECIFICATIONS:

- Polystyrene desk won't chip, scratch, or bend.
- Accessory shelf for assorted items.
- Color selection perfectly matches Student Chairs and other Wenger products.
- Stylized 20³/₈" x 13¹/₂" (52 cm x 34 cm) desk surface.
- Base is welded - not bolted - eliminating wobbles, leaning, and the need for tightening.
- Patented desk height adjuster moves up and down easily and holds securely in place.
- Desk adjusts from 24" to 45¹/₂" (61 cm to 116 cm), desk lip to floor.
- Three-year warranty.
- Assembly required.

1020000 Bravo Stand (10 lbs.) (4.5 kg)
