

CLASSIC 50™

The next generation of music stands.

The new Classic 50™ is the end result of half a century of experience with music educators just like you. By thoroughly investigating your day-to-day needs and recurring problems, we've been able to create a music stand that delivers traditional elegance without traditional headaches.

The Classic's superiority begins with its tough, lightweight construction. The special polymer material has an inherent tensile strength that withstands daily rigors without bending or denting like metal — and without creating a clatter. It's so quiet it won't rattle, ring or clang. Add striking good looks and you have not only the most refined music stand ever designed, but also a stand that's tough enough to handle rough-and-tumble classrooms.

CLASSIC 50™

Strong not only in construction but also in its classic, striking appearance.

The Classic's slider mechanism is Teflon-impregnated for the ultimate in quiet, non-slip performance.

The wobble-free base never needs tightening.

We tested Classic 50 against metal to see which would bend — and stay bent.

We wanted to see how the Classic 50 and a metal stand would compare when subjected to identical sustained pressure.

As you can see, there is no comparison. The Classic 50 bounces back into shape, while metal stays permanently bent.

The unique recessed area prevents pencils and other ancillaries from flying off the desk when you turn the pages.

The desk is tightly secured to the stem but still allows an extremely fluid tilting motion and full-range of angles.

The wobble-free base is one more example of the Classic's comprehensive quality, from top to bottom.

CLASSIC 50™ SPECIFICATIONS:

- Lightweight — only 5.5 lbs.
- High-strength polymer desk and base.
- Made from recycled material.
- Balanced for excellent stability.
- Wobble-free base attachment never needs tightening.
- Unique recessed desk area for pencils.
- Classic black styling is color-molded through base and desk for distinctive, long-lasting good looks.
- Bolt-through desk attachment holds tight and secure — always.
- 13½" x 20" music desk.
- Patented slider mechanism adjusts height from 25½" to 49", desk lip to floor.
- 3-year warranty.
- Patented, and other patents pending.
