NOTA® STANDARD
MUSIC POSTURE CHAIR

Wenger®
Your Performance Partner

Inspired by musicians. Innovative by design.
For almost 70 years, Wenger has shared the passion and enthusiasm of musicians by focusing on the unique needs of music education and performance. Wenger has a proud history of developing innovative products. We were the first to develop a chair specifically designed for music posture because proper posture and alignment is critical for performers to be their best. That spirit of innovation continues. Welcome to the next generation of music posture chairs – the Nota® music posture chair by Wenger.

The design of the Nota chair is based on years of customer research and consultation with medical experts regarding posture principles and key ergonomic issues related to chairs and seating positions. Based on this input and supported by scientific testing, the Nota chair was designed and engineered for optimal comfort, flexibility and proper body support. No other chair promotes easier breathing and freedom of movement or accommodates such a wide variety of seating positions, body types and musical styles. As with all Wenger products, the quality construction and long life of the Nota chair delivers unmatched value for your investment. Discover for yourself how musical inspiration and leading edge innovation combined to create the Nota music posture chair by Wenger.

NOTA® STANDARD MUSIC POSTURE CHAIR

Narrow Convex Back
Helps open the rib cages for better diaphragmatic breathing. Provides lumbar support and allows for greater freedom of movement.

Position-Transition Seat
Allows for a variety of seating positions while still providing support. Proper alignment is encouraged whether the musician is seated back in the "engaged" position, forward in the "perched" position, or angled on the chair.

Rounded Waterfall Front
Helps maintain good circulation, which helps reduce the "fidget factor." Allows one height of chair to accommodate a wider range of body sizes.

Optional desk folds completely out of the way when not in use.

Graphite Cherry Fusion Maple Solar Oak

Black edge banding and support tube assembly.

Seat Contour
Maximum seating comfort over long periods of time. Alleviates pressure points by more evenly distributing the weight of the musician.

Wear resistant polypropylene blend seat and back
Promotes even weight distribution, comfort and a lasting appearance.

Proper Body Support
Mimics the standing posture when seated – the strongest, most natural body position. Reduces the risk of pain and lasting injury.

Ganging Clamps make connecting Nota chairs a snap.

PRODUCT SPECIFICATIONS:

- Wear resistant polypropylene seat and back promote even weight distribution, greater comfort and a lasting appearance.
- Patented design provides two seating zones: "engaged" (rear) and "perched" (forward).
  - The engaged position allows the occupant to sit with a thigh to back angle of 97°.
  - The perched position allows the occupant to sit with a thigh to back angle in the range of 96-106°.
  - A transition area allows users to move seamlessly between zones.
- Each zone enhances performance by promoting a naturally balanced skeletal shape, reducing muscle strain and enabling increased circulation, freedom of movement, and diaphragmatic breathing.
- Narrow convex back provides lumbar support while still allowing for freedom and range of movement.
- Rounded waterfall front allows one height of chair to accommodate a wider range of body sizes.
- Powder coat paint finish for maximum durability. Chrome finish is also available.
- Durable, specially designed floor glides provide stability when seated and ease of movement when arranging chairs.
- Chairs stack for compact storage.
  Note: Accessories prohibit chair stacking.
- Specially designed stacking bumpers provide maximum stability and protection when chairs are stacked.
- Available in heights of 17.5" (445 mm), 19" (483 mm), 20.5" (521 mm).
- Five year warranty.

0330000 Nota Standard Chair, 11 Lbs. (5 kg)

OPTIONAL ACCESSORY:
