

BACKSTAGE MAKEUP STATION

Makeup on the move.

Introducing the professional makeup station that's portable. The Backstage Makeup Station from Wenger sets up anywhere - on tables, countertops, road cases, you name it. Weighing in at only 35 lbs (16 kg), it can be carried by one person yet it's incredibly solid and well balanced. Now you can convert auxiliary rooms and backstage areas into makeup studios because you get features you'd expect from wall-mounted makeup stations.

Six 60 watt incandescent bulbs, or 15 watt full-spectrum swirl fluorescents bulbs give you excellent illumination for accurate reflection of skin tones and makeup colors. Openings in the cages allow for bulb removal and installation without removing the cages.

The attractive white aluminum mirror surround positions lights for optimal shadow-free illumination. The large mirror provides a full, unobstructed view of head and shoulders for detailed makeup application. There's even access for electric appliances such as hair dryers and curling irons. And makeup stations nest together for compact storage.

The Backstage Makeup Station from Wenger - As committed to the quality of our products as you are to your craft.

BACKSTAGE MAKEUP STATION

Even though it's portable, the makeup station is solid and well balanced so you can set it almost anywhere.

Steel frame and unique aluminum light housing surround a large high quality mirror.

Openings in the cages allow for bulb removal and installation without removing the cages.

A rocker switch and single grounded outlet are mounted on the mirror surround.

BACKSTAGE MAKEUP STATION SPECIFICATIONS:

- Weighs 35 lbs. (16 kg) and can be carried by one person. Steel frame doubles as carrying handle.
- 33" wide, 33³/₄" high, 9³/₈" deep (84 cm, 85 cm, 24 cm) makeup station is well balanced and sets anywhere.
- Each 33" wide unit requires an incremental 6¹/₂" of floor or shelf space for storage.
- Recommended GE Reveal® 60 watt incandescent bulbs, or 15 watt full-spectrum swirl fluorescents for additional clarity and accurate reflection of skin tones and makeup colors.
- ³/₁₆" (5 mm) diameter steel wire light bulb cages, permanently mounted.
- 20³/₄" wide x 22³/₄" high (53 cm x 58 cm) high quality mirror laminated to a steel backer. Steel frame and unique aluminum light housing surround the mirror.
- Single outlet and rocker switch combination with built-in GFCI protection.
- 10' 12 gauge. 3-wire cord plugs into a standard 110 outlet.
- A rocker switch and single grounded outlet are mounted on the lower right side of the mirror surround. Switch controls lights only, allowing appliances to operate with lights off.
- Meets NEC (National Electric Code) requirements.
- Entire product is UL (underwriter laboratory) approved.
